## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-53 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record does not disclose or teach a stage assembly using attraction only type actuators where a first electromagnet is positioned at a first angle greater than zero relative to a target surface as recited in claim 1. The prior art of record does not disclose or teach a stage assembly using attraction only type actuators where a first electromagnet is positioned apart from a target surface at a first gap measured at a first point and at a second gap as measured at a second point where the current is directed to the system based on the gap measurements as recited in claim 20. The prior art of record does not disclose or teach a method for positioning a stage assembly using attraction only type actuators where a first electromagnet is positioned at a first angle greater than zero relative to a target surface as recited in claim 38. The prior art of record does not disclose or teach a method of positioning a stage assembly using attraction only type actuators where a first electromagnet is positioned apart from a target surface at a first gap measured at a first point and at a second gap as measured at a second point where the current is directed to the system based on the gap measurements as recited in claim 47.

Hazelton ea 6,486,941 B1 and Poon ea 6,281,655 B1 both disclose attraction only type actuators but do not disclose the claimed relationship between the electromagnets and target surfaces.
